## EMPLOYMENT HISTORY

### Architectural Assistant at MortonScarr Architects, Brighton

October 2021 — January 2024

- **Technical Proficiency and Design:** Developed detailed architectural designs by leveraging industry-standard software tools.
- **Problem-Solving:** Engaged in creative problem-solving to address design challenges, ensuring functionality, sustainability, and aesthetic objectives were met.
- **Attention to Detail:** Demonstrated attention to detail in creating precise architectural drawings and specifications, ensuring high-quality outcomes.
- **Multitasking:** Successfully contributed to multiple projects simultaneously while adhering to strict deadlines.
- **Collaboration & Communication:** Collaborated closely with various stakeholders to ensure the delivery of high-quality projects.
- **Commitment to Continuous Learning:** Engaged in ongoing learning to stay updated with the latest architectural trends and technologies.

## PROJECTS

### Business Website

- A website created for a business, featuring three primary sections: portfolio, offerings, and a contact form. Initially designed as a prototype in Figma, it was then transformed into a fully responsive website across all screen sizes.
- HTML, CSS, JavaScript, React, and Bootstrap

### Jammming

- A React web application utilising state management and Spotify API requests, allowing users to explore the Spotify library, create custom playlists, and seamlessly save them to their Spotify accounts.
- HTML, CSS, JavaScript, React, HTTP Requests & Responses, and Authentication

### Appointment Planner

- A React web application for managing contacts and appointments. It comprises two pages: one for viewing and adding contacts, and another for viewing and adding appointments.
- HTML, CSS, JavaScript, React

## CERTIFICATION

### AWS Certified Cloud Practitioner

April 2023

- Understanding of the AWS Cloud platform, fundamental cloud concepts, and basic AWS services.
